Family Support New Hampshire (FSNH) is a coalition of Family Resource Centers and Family Strengthening Programs throughout New Hampshire that exists to encourage each other, to share best practices, and to better provide for Granite State families. In April 2022, Family Support New Hampshire became a program of New Hampshire Children's Trust.

Members

- Number of Members: 16
 - 15 Community-based FRCs
 - 1 Government Department
- People served: 8,600 individuals and 3,500 families

- Access to Resources
- Family Development Services
- Child Development Activities
- Family Economic Success Activities
- Health/Wellness Activities
- Intentional Multiple Family Member Engagement
- Community-Strengthening Activities
- Kinship Navigation Program

NEW HAMPSHIRE

MISSION STATEMENT:

To bring together the diverse leadership from existing and newly forming Family Resource Centers and family support programs within New Hampshire under the common vision of establishing a statewide network of family support practice within New Hampshire.

Highlights

- In 2020, New Hampshire Children's Trust (NHCT) developed a common data platform called the Family Support Data System, in collaboration with FRCs, state funders, and consultants. Built on a QuickBase platform, the data system is easily modified as the need for new data and reporting changes, and it represents the first and only data platform available to every FRC in the Network. The resulting functionality for reporting, accessible on a role permissions basis by individual FRCs and state funders, has been described as a "game-changer." The data system contains the demographic and service record data for more than 25,000 people in more than 10,200 families.
- In 2022, NHCT and Family Support New Hampshire merged to continue to serve the needs of Network membership. A staff position was created to support Network coordination using federal Community Based Child Abuse Prevention funding. This position has created a more structured process for information dissemination, more opportunity for Network representation at larger system building tables, and the continuation of monthly member meetings.
